

Superintendent Message

August/September 2015

Summer has been a busy time at Findlay City Schools! After dealing with a very wet June, we are working very diligently to get our buildings ready for the 2015/2016 school year. Modular classrooms have been installed at Jefferson and Chamberlin Hill to address the increased enrollment in our K-5 student population. This project has been moving along at a steady pace and is on schedule for the start of the school year. Also, on schedule for the start of the school year is our preschool expansion at our Washington building which houses our administrative offices and now eight preschool classrooms. This expansion would not be possible without the support of the United Way and The Community Foundation. This is just another great example of the tremendous support of our community for Findlay City Schools!

Enrollment in the district occurs at the Washington Administrative Building, 1100 Broad Avenue, for grades PK-8, and the enrollment for high school students occurs at the high school, 1200 Broad Ave. Questions about the district or specific enrollment issues can be answered by calling 419-425-8275. Also, district information is found on our website www.fcs.org.

I am looking forward to another wonderful school year!
