

# Spring 2018

## Superintendent Message

As I write this I would love to say that Spring is in the air, but the snow is still falling. As I talk with the principals it is not such a bad thing during testing time. Students are focused because they are not looking out the window dreaming of being out in the nice warm sunshine. So, I would say that this unseasonably chilly spring weather has an upside.

As we wrap up the 2017-18 school year it is wonderful to celebrate the many accomplishments our students have received. We as a district take pride in our student accomplishments from We the People to Findlay First Edition to the reverse job fair at Millstream where our students are getting the opportunity to go straight into the workforce. Our community collaborations allow our students to experience real life job opportunities through our mentorship programs for those going on to college and those going into the workforce.

It is Kindergarten registration time!!! It is important to register any child that will turn five (5) by August 1, 2018. Registering early allows us to screen your child prior to school starting next year. Please go to <http://bit.ly/FCSKDG> and begin the registration process. Remember if you live outside the Findlay City School district we welcome you to register to attend Findlay City Schools. The district offers opportunities for all students. Whether they are gifted, need a little extra help, athletic, love music, love books, love just about anything, we have something for you. If you would like to visit one of our schools, feel free to contact Barb Bish at [bbish@fcs.org](mailto:bbish@fcs.org) or 419-427-5488. She would be happy to arrange a tour.

Remember to visit the opportunities section on our website [www.fcs.org](http://www.fcs.org) for summer camps and activities your child can be involved in over the summer. Also, while on the website sign up to receive text alerts from your child's school and the district and please sign up to receive the email newsletters and information your child's principal will be sending out. We want to stay connected with you in multiple ways. Communication is very important to us!

In closing, I would like to personally thank you for making Findlay City Schools your choice to educate and empower your children. We take this as an extreme honor and will work diligently to provide the best educational and social experience for every student.
