Principles of Quality Charter School Authorizing

Principle 1: Maintain High Standards

- Set high standards for approving charter school applications – at this time Findlay City Schools will only sponsor Findlay Digital Academy. Findlay City Schools is not accepting any new applications.
- Maintain high standards for schools it oversees. These high standards include evaluating the curriculum, personnel, and financial status of Findlay Digital Academy. They also include evaluating the health and safety standards. Additionally, student, staff and parent interests and well-being will be monitored.

- Oversee Findlay Digital Academy and establish that over time it meets the performance standards and targets on a range of measures and metrics set forth in the charter school/community school/sponsor contract.
- Close any school that fails to meet standards and targets set forth by Ohio Revised Code, Federal Law and by the sponsor contract.

Principle 2: Uphold School Autonomy

- Honors and preserves core autonomies crucial to school success, including:
 - a. Governing board independence from the authorizer
 - b. Personnel
 - c. School vision and culture
 - d. Instructional programming, design, use of time
 - e. Budgeting
- Assumes responsibility not for the success or failure of individual schools, but for holding schools accountable for their performance.
- Minimizes administrative and compliance burdens on schools
- Focuses on holding schools accountable for outcomes rather than process

Principle 3: Protect Student and Public Interests

- Makes the well-being and interests of students the fundamental value informing all the authorizer's actions and decisions.
- Holds Findlay Digital Academy accountable for fulfilling fundamental public education obligations to all students, which includes providing
 - a. Nonselective, nondiscriminatory access to all eligible students
 - b. Fair treatment in admissions and disciplinary actions for all students
 - c. Appropriate services for all students, including those with disabilities and English learners, in accordance with applicable law
- Ensures in its own work:
 - a. Ethical conduct
 - b. Focus on the mission of chartering high-quality schools
 - c. Clarity, consistency, and public transparency in authorizing policies, practices, and decisions
 - d. Effective and efficient public stewardship
 - e. Compliance with applicable laws and regulations
- Supports parents and students in being well-informed about the quality of education provided by Findlay Digital Academy and any other school that Findlay City Schools might sponsor in the future.

Findlay City Schools, as a sponsor, will oversee Findlay Digital Academy and working in partnership with Findlay Digital Academy will adhere to the Quality Practices as set forth in the Sponsor Quality Practices Rubric by the Ohio Department of Education. It

will do likewise in regard to the Compliance Component and Academic Component of the Sponsor Evaluation process.

Standards for Quality Charter School Authorizing

Agency Commitment and Capacity

A quality authorizer engages in chartering as a means to foster excellent schools and offer school choice that meet identified needs, clearly prioritizes a commitment to excellence in education in authorizing practices, and creates organizational structures and commits human and financial resources necessary to conduct its authorizing duties effectively and efficiently.

The Findlay community in 2004 set up a task force to address the number of students who were being expelled or were dropping out of school. This task force had members from the Juvenile Court, Findlay City Schools, the Family Resource Center, Camp Fire USA and other community organizations. This task force felt that school choice should be offered to these students to address their life issues. Findlay City Schools took the leadership and became the sponsor of the Findlay Digital Academy that offers an on-line, continuous progress model of quality education. In 2014, Findlay Digital Academy was named the Charter School of the Year by the Ohio Alliance of Public Charter Schools. In November 2017 Findlay City School was rated as an Exemplary Sponsor by the State of Ohio Office of Community Schools.

The contract is an essential document, separate from the charter application, that establishes the legally binding agreement and terms under which the school will operate and be held accountable.

Appendix 5 Sponsor Strategic Plan

Sponsoring Philosophy/Policy on Non-Renewals and/or Termination of an Ohio Community School

Termination of a Community School results in a permanent closure of a community school and a sponsor should take the loss of investment of public funds seriously and in balance with the loss of funds that may occur if the school is ultimately failing.

The District believes that termination of a contract with a community school should be in accordance with the statutorily allowable reasons of financial insecurity, educational performance deficiencies, health or safety reasons, breach of the community school contract or other good cause. The Sponsor looks also to the service that the school provides to students, the community interests, and the performance of the surrounding schools from the students' home districts, and the safety and progress of the students.

In an effort to maintain high quality among public schools, the Sponsor sets its procedures for non-renewal to be stringent, both assessing the three previous years of performance of a community school, and deciding whether the community school is in substantial compliance with its community school contract.

If a school applies to transfer to the Sponsor from another sponsor, the District will not take that school if (a) the previous sponsor non-renewed the school for educational or financial reasons, or (b) the school was non-renewed for other reasons that Findlay City Schools does not feel it cannot improve significantly through its own resources, technical assistance or expertise.

Although the District may take application for new schools, the general plan for the District is not to take on additional schools to sponsor unless it sees a dire need in the region that it feels will be fulfilled by a mission-based community school that can serve students in a manner that is unique, and which increases the opportunities for those students not otherwise being addressed.

In the event, that a school contract is terminated the Closing Procedures (Exhibit 8) outlined in the Sponsor Contract.

Appendix 6 Sponsor Strategic Plan

Technical Assistance Guidance/Process

The Sponsor (Findlay City Schools) has an established process for determining the needs of its School and it conducts a needs assessment annually to determine what type of technical assistance the School needs.

The scope of technical assistance provided by the Sponsor to its sponsored community school, Findlay Digital Academy, covers all aspects of the School's programs. As the Sponsor, we make significant resources available relating to instruction, transportation, facilities, fiscal matters, legal compliance, and other areas relevant to the School's operations. In our capacity as a local school district, we regularly encounter significant curriculum, technology, human resources, and/or other legal compliance issues. Information we learn through our own operations benefits the School. Further, our affiliation with other governmental entities, including but not limited to Educational Service Centers, provides additional resources to address the School's needs as they arise.

The Sponsor administrators work directly with School staff regularly as needed. Given the close proximity of the facilities, the Sponsor regularly handles such issues in a one-on-one, as needed basis, and we have made it clear that School staff can contact us in person, by cell phone, or by email at any time.

The Sponsor holds regular meetings with the School to determine whether the School needs additional assistance. The Sponsor sends a representative to attend every School board meeting, and we include a report on the School in our own District board meetings sometimes as a formal agenda item and other times as an informal comment.

Some examples of technical assistance are as follows:

- Provide guidance regarding the handling of standardized test administration during the OGT and AIR assessments.
- Confer with School staff regarding FTE requirements based on the new requirements.
- Assist the School in preparing its application to providing career-technical education programming. School leadership attends all of the Millstream Career Tech Directors meetings.
- Provide contacts within the community to assist with School programs.
- Provide guidance related to public records requests.
- Assist with the Sheriff's Office to secure services.
- Provide guidance regarding new career advising and College Credit Plus requirements.
- Share space and resources in an efficient manner when needed
- Perform all site visits to ensure compliance with laws and the School's contract with the District.
